 Hangared at County T's at SUS

1974 Cessna 182P

Our flying club was started in 1969 by F-4 Phantom pilots. The club has been in continuous operation since its inception.

We are a group of pilots, who enjoy aviation, pay attention to the care and maintenance of our aircraft, and enjoy the camaraderie of our fellow members.

The requirements for membership are to hold at least a Private Pilots License—ASEL and to have logged at least 100 hours as PIC.

If you seek a great cross-country plane and fellowship with other aviation enthusiasts, then this is the flying club for you.

Our club is a not for profit organization. Safety is our highest priority, and the aircraft is maintained to that standard.

More details of the airplane and club are available at www.phantom5.org.
